

Accessories range

Your trusted stoma care essentials

Explore our wide range of stoma care essentials, carefully designed to meet your diverse needs as someone living with a stoma.

From skin protection to leak prevention, our high-quality accessories are crafted to enhance confidence in your daily life. Whether you're seeking reliable and secure solutions or gentle skin barriers, our trusted stoma care essentials have got you covered.

Step 1

Protect

Protecting peristomal skin by providing an additional level of support and barrier between your stoma and the surrounding skin.

Step 2

Secure

Providing extra security for your pouches by enhancing adhesion and minimising leakage to support a confident and active lifestyle.

Step 3

Care

Maintaining optimal care by ensuring gentle pouch removal and supporting your skin health.

Step 4

Empower

Empower your ostomy journey with our stoma care essentials, designed to promote good skin health and provide reliable support to meet your unique needs.

Helping to protect peristomal skin by using skin friendly ingredients.

Support skin integrity by preparing the skin from the painful effects of leakage and the discomfort caused by constant pouch changing. Create a protective barrier on your peristomal skin to help prevent direct contact with stoma output, reducing the risk of skin irritation and keeping your skin in the best possible condition.

Product	Description	Product Code	Pack Size
Welland Stoma Paste (100g)	Alcohol-free, no-sting paste for use on uneven skin around a stoma. By smoothing and levelling minor skin irregularities, it creates an ideal base to improve the fit of a stoma pouch.	WSP100	1
Welland Stoma Powder (25g)	Stoma powder secures stoma adhesives to difficult moist areas which may cause leakage and sore skin.	WPP025	1
WBF® No Sting Barrier Spray (spray 50ml)	Protects the skin from a stripping effect from repeated removal of stoma products. Available in a spray or wipes.	WBS050	1
WBF® No Sting Skin Barrier Wipe (Non-Sterile)		WBF050	50
WBF® No Sting Skin Barrier Wipe (Sterile)		WBF100	30

For complete security and comfort to support an active lifestyle.

Provide extra security and comfort where needed with a range of accessories designed to leave you feeling confident and secure.

Knowing your pouch is well supported and is less likely to leak can be beneficial to your active lifestyle and overall quality of life.

Supporting healthy skin by enabling easy pouch removal.

Facilitates gentle pouch removal and protects your skin from the harmful effects of skin stripping and irritation, without compromising the adhesion of the next pouch.

Enhance the comfort of your pouch removal with our accessories, designed to offer extra assistance during the removal process.

Product	Description	Product Code	Pack Size
Medical Adhesive Remover (spray 50ml)	Medical Adhesive Remover provides fast and kind removal of stoma products and protects from the harmful effects of repeated skin stripping. Available in a spray or wipes.	WAB050	1
Medical Adhesive Remover (Wipes)		WAD050	50

What people think...

UltraFrame®

“ My daughter swam for two hours and her pouch stayed secure. UltraFrame® is amazing!”

Andrea, Czech Republic

HyperSeal® Washers

“ They are so pliable and easy to use and I’ve had no trouble with the pouches since I’ve been using them.”

P.C, United Kingdom

Stoma Powder

“ When I use the powder any redness or skin irritations practically disappears. This helps the wafer adhere better.”
