Aurum convex
with Manuka Honey

Introducing the
Aurum® Convex range

Welland Medical

Innovators in **Stomacare**

Aurum convex
with Manuka Honey

Versatile convexity for a kind, leak-free fit.

Often when ostomates have a poorly sited, recessed or retracted stoma, a convex flange is recommended to apply gentle pressure to help the stoma to protrude.

Aurum® Convex one-piece range of colostomy, ileostomy and urostomy pouches provide reassurance to ostomates that may experience leakage and sore skin when using a traditional convex or flat flange.

As Aurum® Convex conforms to shape at body temperature a kind and secure seal is formed around the stoma. The gentle pressure that is applied to bring the stoma out and into the bag prevents the chance of leakage occurring behind the flange.

Benefits at a glance...

Skin Friendly

The Hyperflex® hydrocolloid flange has added Manuka honey, which may help to promote healthy skin around the stoma

Manuka Honey

This type of active Manuka honey has characteristics that kill bacteria, suppress inflammation and stimulate the growth of cells

Versatile Convexity

A kind solution for stomas that need moderate to advanced help to protrude

One Fits All

• Retracted stomas
• Deeply recessed, sunken or tilted stomas
• Flush or poorly sited stomas

Domed Flange

• Flexible, domed plateau can be folded during application ensuring a secure fit across the contours of the body

• The surface is smooth without any hard, rigid edges that may potentially harm the stoma

• Thermoplastic moulding adjusts to shape at body temperature

Aurum convex
with Manuka Honey

Colostomy

The Aurum® Convex closed range of pouches is available in mini, midi, midi plus, maxi, maxi plus sizes to suit individual needs. The flexible convex flange provides a secure and comfortable fit while helping to bring the stoma forward and into the pouch.

> "I felt so much better wearing the new pouch, more confident to go out."
>
> **Mrs T, Leicestershire, UK**

Features & Benefits

- The Hyperflex® hydrocolloid with added Manuka honey is skin friendly and may help reduce skin irritation

- The Dual-Carb®2 filter is laser cut for optimum accuracy to ensure less ballooning and more effective management of gas and odour

- easy2peel™ tab – supports the smooth removal of the flange, reducing skin trauma

- Integrated belt loops for those who require additional security

- Super soft water repellent cover – exceptional comfort even during extended wear

- Split back cover – easier pouch positioning and output monitoring

- Cutting guide – allows a perfect fit for different stoma shapes and sizes, reducing skin irritation and potential leakage

- Mini, midi, midi plus, maxi and maxi plus pouches available with an option of 4 plateau sizes to suit individual needs
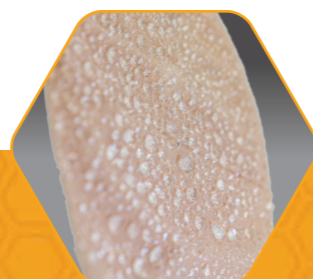

Wider choice

An extra-large flange that cuts up to 60mm features on midi plus and maxi plus pouches.

Aurum convex
with **Manuka Honey**

Ileostomy

The Aurum® Convex drainable range of pouches is available in mini, midi, midi plus, maxi, maxi plus sizes to suit individual needs.
The flexible convex flange provides a secure and comfortable fit while helping to bring the stoma forward and into the pouch.

> " Odour control appeared to be better than with normal pouch - a big plus! "
>
> **Mrs B, County Durham, UK**

Features & Benefits

- The Hyperflex® hydrocolloid with added Manuka honey is skin friendly and may help reduce skin irritation

- The Dual-Carb®I filter – repels liquid, reducing the chance of leakage

- easy2peel™ tab – supports the smooth removal of the flange, reducing skin trauma

- Integrated belt loops for those who require additional security

- Super soft water repellent cover – exceptional comfort even during extended wear

- Split back cover – easier pouch positioning and output monitoring

- Cutting guide – allows a perfect fit for different stoma shapes and sizes, reducing skin irritation and potential leakage

- Mini, midi, midi plus, maxi and maxi plus pouches available with an option of 4 plateau sizes to suit individual needs
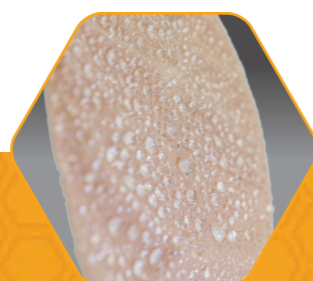

Wider choice

An extra-large flange that cuts up to 60mm features on midi plus and maxi plus pouches.

Aurum
convex
with Manuka Honey

Urostomy

The Aurum® Convex urostomy range of pouches is available in midi and maxi sizes to suit individual needs. The flexible convex flange provides a secure and comfortable fit while helping to bring the stoma forward and into the pouch.

Features & Benefits

- The Hyperflex® hydrocolloid with added Manuka honey is skin friendly and may help reduce skin irritation

- Reduced chance of infection as the non-return valve prevents the reflux of urine

- Increased comfort with the extremely soft and flexible tap

- Integrated belt loops for those who require additional security

- easy2peel™ tab – supports the smooth removal of the flange, reducing skin trauma

- Super soft water repellent cover – exceptional comfort even during extended wear

- Split back cover – easier pouch positioning and output monitoring

- Flow is simply controlled by applying light pressure to the outlet

- Reduced pouch profile due to the improved tap pocket

- Cutting guide – allows a perfect fit for different stoma shapes and sizes, reducing skin irritation and potential leakage

Easi **flo**

For undisturbed sleep

Aurum® Convex urostomy is compatible with the Night Drainage Bag featuring Easiflo™.

Easiflo™ ensures a continuous flow into the Night Drainage Bag, even if the urostomy bag twists or kinks during the night.
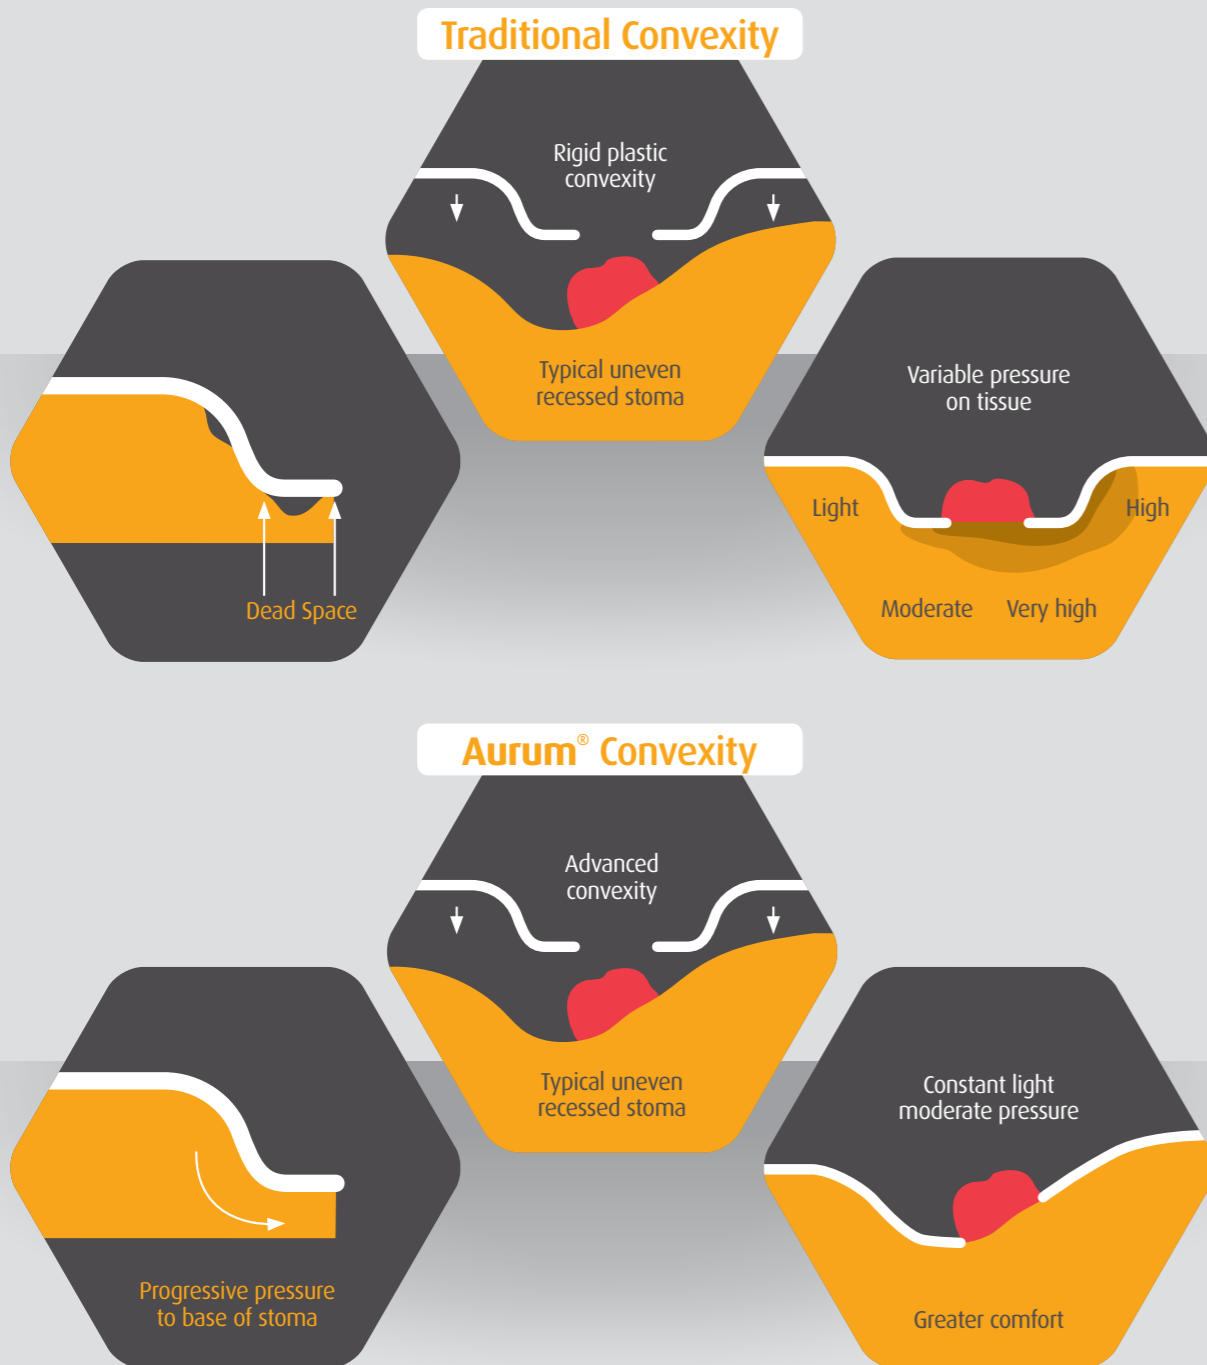

Aurum convex
with **Manuka Honey**

As Aurum® Convex conforms to shape at body temperature, a kind and secure seal is formed around the stoma.

The gentle progressive pressure to the base fills the dead space around the stoma, reducing the chance of leakage occurring behind the flange.

Traditional Convexity

Rigid plastic convexity

Typical uneven recessed stoma

Variable pressure on tissue

Light
High
Moderate
Very high

Dead Space

Aurum® Convexity

Advanced convexity

Typical uneven recessed stoma

Constant light moderate pressure

Progressive pressure to base of stoma

Greater comfort
